

Thu 22 Feb 2018 1200 UTC

A weather map of Europe and the North Atlantic region. The map features blue isobars, wind vectors in red, green, and purple, and various weather fronts. A low-pressure system is visible over the North Atlantic, with a cold front extending southwards and a warm front extending eastwards. The map includes the outlines of Europe, the British Isles, and parts of North America and Africa. The background is a light tan color.

Fri 23 Feb 2018 0600 UTC

A weather map of the North Atlantic region. The map shows a low-pressure system (cyclone) centered over the British Isles, with concentric isobars and wind vectors. The wind vectors are color-coded: red for strong winds, green for moderate winds, and blue for light winds. The map also shows the outlines of the continents and islands in the region, including North America, the British Isles, and parts of Europe and Africa. The background is a light brown color representing land, and white representing water.

Sat 24 Feb 2018 0600 UTC

A weather map of the North Atlantic region, including parts of North America, the British Isles, and Iceland. The map features blue contour lines representing pressure systems, with a prominent low-pressure system over the western North Atlantic and a high-pressure system over the eastern North Atlantic. Wind vectors are shown as small arrows in red, green, and purple, indicating wind direction and speed. Shaded areas in white and light blue represent cloud cover. Landmasses are shown in brown, and snow-covered areas are in white. The map is overlaid with a grid of latitude and longitude lines.

Sun 25 Feb 2018 0600 UTC

A weather map of the North Atlantic region, including parts of North America, the British Isles, and Europe. The map features blue isobars representing pressure systems, with a low-pressure system centered over the North Atlantic and a high-pressure system over the British Isles. Wind vectors are shown as red and green arrows, indicating wind direction and speed. A color scale at the bottom indicates cloud cover percentages, ranging from 0% (white) to 100% (dark blue). The map is titled "Sun 25 Feb 2018 0600 UTC" and includes a timestamp "Issued 22-Feb-2018 12:08".

Issued 22-Feb-2018 12.08

Tue 27 Feb 2018 0600 UTC

A weather map of Europe and the North Atlantic region. The map features blue contour lines representing pressure systems. A prominent low-pressure system is centered over the North Atlantic, with concentric contours and a central 'V' symbol. To its east, a high-pressure system is located over the British Isles, with concentric contours and a central 'A' symbol. Wind vectors are shown as small arrows in red, green, and blue, indicating wind direction and speed. The landmasses of Europe, Africa, and parts of Asia are shown in brown, while the oceans are white. The map is overlaid with a grid of latitude and longitude lines.

Wed 28 Feb 2018 0600 UTC

A weather map of Europe and the North Atlantic region. The map features blue isobars representing pressure contours, with a prominent low-pressure system centered over the North Atlantic. Wind vectors are shown as small arrows in various colors (red, green, purple, black) indicating wind direction and speed. Landmasses are shaded in brown, and snow-covered areas are shown in white. The map is overlaid with a grid of latitude and longitude lines.

Thu 01 Mar 2018 0600 UTC

A weather map of Europe and the North Atlantic region. The map features blue contour lines representing pressure systems, with a low-pressure system centered over the North Atlantic and a high-pressure system over the British Isles. Wind vectors are shown as arrows of various colors (red, green, purple, black) indicating wind direction and speed. The landmasses are shaded in brown, and the sea level is white. The map is titled with the date and time in a white box at the top left.
